EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Edward Goodman on 11/21/07.

2. The application has been amended as follows:

Claim 6 (the original claim 8 has been renumbered as claim 6) has been replaced with the following: --

6. A <u>computer readable medium</u> [data carrier] storing a computer program for execution by a processor, the computer program causing the processor to generate an output audio signal by adding output components in a predetermined first frequency range to an input signal, and to generate the output components by performing a predetermined calculation on first input components in a predetermined second frequency range,

characterized in that the computer program causes the processor to set a first output energy measure, over a predetermined first time interval, of the generated output components, based upon a first input energy measure calculated over a predetermined second time interval of second input components, in a predetermined third frequency range of the input audio signal, wherein the predetermined third frequency range is different from the predetermined second frequency range, and is selected from a

predetermined number of frequency ranges, as the frequency range which is closest to the first frequency range according to a predetermined frequency range distance formula.—

- 3. The amendment is necessary because a data carrier, as specified in the specification, is not limited to a computer readable medium. By amended the claim, it is clear that the claim is limited to a computer readable medium
- 4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ping Lee whose telephone number is 571-272-7522. The examiner can normally be reached on Monday, Wednesday and Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vivian C. Chin can be reached on 571-272-7848. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
